Mouth Hygiene Exhibit. New York, May 12.—An exhibition devoted to "mouth hygiene" was opened today under the direction of the Dental Hygiene Council of New York. The display is part of the national crusade against dental diseases which was started by the Dental Hygiene Councils of Massachusetts, New York and Rhode Island. The campaign has as one of its chief aims the education of the public to the necessity of dental inspection in schools.

An examination last year of 187,000 children in public schools of New York showed that the number of cases of defective teeth more than doubled that of all other physical deficiencies. Almost 65 per cent. of the school children examined in this city were found to be "dental cripples."

Admittance to the exhibition and conferences will be free at all hours from 9 a. m. to 11 p. m. every day. The list of names in the Advisory committee contains those of many prominent public men, physicians, educators and charitable workers.
